GREAT BRITAIN.

A SENSATIONAL EVENT.

London, Aug. 4.—During the ceremony at Guild hall Saturday of presenting the freedom of the city to Lords Beaconsfield and Salisbury a considerable sensation was created by a person who, on the appearance of the plenipotentiaries, shouted, "Traitors to the constitution." The disturber was im-

mediately ejected. WHAT BEACONSFIELD SAID. In his speech at the Mansion house banuet Lord Besconsfield said he felt confiient her majesty's ministry had not only maintained the interests of their own country, but had secured the independence of Europe. He drew a sanguine picture of the prospects from the Angio-Turkish convention. In support of the view that it was not hopeiess to expect reforms in the administration of the porte, he cited statement sent to the emperor of Germany by German missionaries, setting forth the toleration of Christians, the progress of education in the Ottoman domin-

ions, etc., since the Crimean war, Lord Beaconsfield said this testimony was preferable to any official report. It was that of men of the highest principles and of sublime character who devoted their lives to the benefit of their fellow creatures. His lord-s 15 p said that never within his experience ST JOSEPH'S—(Reman Cathol.c) Corner Cross had the relations of the powers been so esand Walnut streets; services Sabbath 10:30 a. Sanday School at 2 p. m.; Vespers 2 p. m.; sersentially friendly. Russian statesmen were convinced that a restless, warlike spirit must

happen to England. SALISBURY. Lord Salisbury also made a speech, indicating that the government has resolved to fully avail itself of the right of interference in favor of good government afforded by the Anglo-Turkish convention. He urged upon British statesmen the sinking of all

THE YELLOW JACK.

REPORTS FROM MEMPHIS, VICKSBURG AND

NEW OBLEANS. MEMPHIS, Tenn., Aug. 4 .- The health officer is put to considerable trouble preventing people from New Orleans entering the city contrary to quarantine regulations. Two gentlemen arriving by the Mississippi and Tennessee railroad this morning were ar-rested and carried before the chief of pocame on tickets purchased at Grenada and and were released. The trick played on the quarantine officials is to buy tickets at New Orleans to some way point and at that point purchase tickets to Memphis. This will have the effect to make the board of health include New Orleans and all way points in their quarantine blockade. health officer is acting upon the principle that eternal vigilance is the price of yellow fever can be kept out of our city. from this city to qurantine hospital died there to-day, but the health officer has re-

ceived no such intelligence. MAN FINED AT VICKSBURG.
VICKSBURG, Aug. 4.—Morris Mayer, of
New Orleans, was fined \$250 and ordered out of town for violation of quarantine regulations. He came from New Orleans on the steamer Cannon on the 2nd inst. He appealed from Mayor O'Leary's decision to the board of aldermen. They heard the case last night and sustained the may-

A NEAT JOB.

THE SPRINGPIELD GAZETTE PALLS A VICTIM TO THE WILES OF THE WICKED REGISTER

For some time past the State Register and State Journal of Springfield, which papers receive the Associated Press dispatches there, have been charging that the Gazette, which receives no dispatches from the telegraph office, was in the habit of getting an early copy of either of the papers mentioned and clipping the dispatches therefrom to be reprinted in the Gazette at a later hour in the morning. This the Gazette has repeatedly denied, and the public has been in doubt as to the truth of the charges. This morning, however, the Register pullished among its dispatches the following logus dispatch:

Winchester Ill. Aug. 2.—About 4 p. m. to-day, a heavy rain had prevailed for more than an hour, when the clouds in the northwest became heavier, and a terrible tornado burst on the town. John Winchell son of the principal owner of the town, was killed by the destruction of the building in which he was engaged in writing. Rev. Mr. Gaulop, paster of the German Lutheran church, was in his study when the tornado struck the church and started across the street to his residencebut was struck by the timbers from the spire of the church, which was blown away, and was fatally injured. It was some time before he was rescued from the wreck and taken to his house, where he died in half an hour. His last words were: "Ich habe diese nachricht gesto-

A great many houses were more or less damaged, and trees and fences were prostrated in all directions.

An agent of the Gazette was ready to get an early copy, and this being supplied the dispatch was reproduced in that paper, the proprietor being wholly unconscious that the "last words" of the suppositious preacher are in English, "I have stolen this information." The unemployed population of the city, which is large just now, has been in great glee over the joke to-day.

THE JETTY SYSTEM.

ITS MORE ELABORATE DISCUSSION LIKELY TO COME UP AT THE NEXT SESSION-INTIMA-TIONS OF BENEWED HOSTILITY ON THE PART OF THE ENGINEER CORPS.

From the Philadelphia Press. Washington, August 1.-The petition of Captain Eads during the late session of congress, asking a modification of his contract with the government for the opening of a ship channel of a maximum depth of thirty feet from the mouth of the Mississippi river into water of equivalent or greater depth in the Gulf of Mexico has attracted public attion to such an extent to his system that it is not improbable at the next session of Congress the question will come up for more elaborate discussion and extended legislation. The committee charged with the consideration of the petition of Captain Eads, while disposed to facilitate his work in every manner possible within the limits of the original contract, showed a disposition to obtain more information than then possessed by the Government, and proposed for that purpose the organization of a Comthe practicability of the jetty system as a permanent system of channel improvment, and upon various contingent forces at work to prevent durable results.

The success of the operations of Captain Ends's system thus far has awakened a wider interest in the work, and there is every prospect of its expansion into a question of conflict between the great rail transportation routes to the seaboard. There were some incipient indications of this hostility last winter, and it is not improbable, should any further legislation be undertaken, that these rival interests will come in open collision. Independent of this probable opposition, a strong influence is growing up in the engineer corps of the army against Captain Eads's enterprise, but whether from well grounded scientific or practical objections, or from a narrow sense of opposition to the execution of great works of river harbor improvement by private enterprise, remains to be demonstrated. A gentleman of extensive mercantile in-

terests in New Orleans, speaking of the

Mississippi, says that Captain Eacls is entitled to great consideration for the scientific skill and practical enterprise displayed as far as the work has progressed; that the people of New Orleans fully appreciate and applaud the success thus far; that the government, under the direction of the secretary of war, could not have conducted the experiment to the same point, without the expenditure of a much larger sum than has already been disbursed. He says that lice, but they established the fact that they | the universal sentiment in commercial and mercantile circles in New Orleans is, without exception, favorable to the project as a successful experiment, but lacks sufficient practical test as a premanently established work; that no great storm has yet tested its durability in a mechanic al point of view, or the complete correctness of the theory, a doubt being expressed as to the possibility of preventing the formation of a new bar off the mouth of the jetty, and health, and by his vigilance and untiring the opinion among persons representing efforts has established confidence here that the shipping and towboat interest is that, the work to be promptly complete, will cost It is rumored to-night that the party taken at least \$15,000,000, and should be trans ferred to the engineer corps, after a full reimbursement of Captain Eads for all the money expended, and a handsome bonus for the skillful maner in which he has conducted the enterprise. The expense of maintaining the work, even at its present depth, which renders the river available for all present purposes of commerce, it is claimed, will be more than the amount allowed by the terms of the contract. It is also stated as an evidence of the prospective financial embarrassment of the enterprise that all the contractors have either failed outright or been hopelessly embarrassed. The large margin of profit allowed to the banks of deaths, 11. Rainy weather for the past 24 St. Louis and New Orleans for the advances of money to Capt. Eads, are also said to be the worst obstacle is the way of even a continuance of the project. It is stated that at least two more payments will be required by Mr. Eads to satisfy the demands of the parties called stockholders. There is no question that important legislation will be vices, and solicits their patronage. She

place this grand system of improvement on a sound financial basis. Its importance to the whole Mississippi valley will insure its respectful consideration and doubtless its effective action and promote the disposi-tion of the Government and private parties. to make some suitable recognition.

We live at the bottom of an ocean of air, and of necessity breathe more or less of the heavier poisonous germs constantly floating through it. To prevent such from asserting their prejudicial effect upon the system, Dr. Bull's Blood Mixture should be used as its efficacy is simply wonderful.

GENERAL DEBILITY.

THE COMMANDER-IN-CHIEF OF THE WOMEN OF AMERICA.

HIS HEADQUARTERS ARE IN OUR HOMES, AND DESTROYING THE REALTH AND HAPPI-NESS OF OUR WIVES AND DAUGHTERS.

Chicago Times Ang. 3.
Disease of the liver affects women more than men, because of the great delicacy of their nervous system. A woman with this disease will have many additional symptoms, and they are very often considered as so many different diseases, when, if the liver difficulty was removed, many symptoms peculiar to women would at once disappear.

SYMPTOMS.

Sick headache, nervous headache, neuralgia, rheumatic pains in various parts of the body, great prostration, excessive weakness of the entire body, the limbs are scarcely able to support the body, they ache intensely and tremble when walking. There is a sense of dragging down from the loins and back forward until it is quite difficult to standerect; most always a severe backache; the shoulders are lame, weary, and drop with an indescribable sense of burning heat under the shoulder-blade, and an aching, sick ening, dragging, unbearable agony. These last symptoms thousands of women have more or less severe. There is a great sense of weariness and pain at the base of the skull, many time, with intense suffering. This pain not infrequently passes forward, and finally spreads over the entire head, and may be the commencement of sick headache.

Now if this condition of the liver is not improved, other organs will become diseased. The blood will become so laden with impurities and impoverished because of indigestion that it will not be able to nourish

the various parts of the body. No part of the economy suffers more from this state than the nervous system, and among delicate females the number of ailments that are directly attributable to this one cause are legion, and in many cases their sufferings are well-nigh unbearable. And to this disease Dyspepsia, which is almost always present and we can account for 76 per cent, of the ailments peculiar to

women. The following testimonial clearly illustrates what the Holman Liver and Stomach Pad is doing for such cases:

MISS KATE MITCHELL CLARK, wife of the Rev. Mashew M. Clark, of one of the greatest misfortunes which could mittee of Science to report generally upon Hyde Park, Ill., said; "My health gave away over twenty years ago, and my system ran down to such an alarming extent that at times I lost all desire to live. I have experienced all the sufferings accompanying a badly diseased stomach, liver, and spleen, and have also been troubled for all these years with constipation of the worst kind. I have tried every treatment, and have taken, of course, vast quantities of medicine of every description, and, I must say, too no purpose. I recentiv read Dr. D. W. Fairchild's lecture on the treatment of diseases by absorption, etc., by the use of the Hol-man Stomach and Liver Pad, Plasters, and Absorption Bath. I found the lecture replete with good sense and sound reasoning. The following day, April 4, 1878, I determined to avail myself of the treatment, and called at the Holman Pad Depot, 134 Madison street, Chicago, weak, emaciated and hopeless, and purchased the spleen belt, the foot-bath absorption salt, the body and foot plasters. This was nearly four weeks since, am now (strange and marvelous as it may seem) able to walk several miles, am entirepresent operations in the South Pass of the ly free from constipation, also my stomach, liver, and spleen troubles; have an excellent appetite, and I feel like a new woman. This to me seems marvelous, but it is just what the Holman Stomach and Liver Pad. etc., did for me. I send you this statement

most cheerfully, and shall ever reccommend these most marvelous remedies." Inclosed find \$2.00 for another of those Holman Liver Pads. When I received the other no one thought I could live over three months, but in four weeks I was able to work some, and I am well now.

Yours gratefully, W. O. Weibling, Westerville, Ohio. GENTLEMEN:-My Liver Pad has made me a new man. You know for twenty-four years I have been poisoning myself with powders, pills, tinetures, syrups, bitters, herbs, mercury, chalk, magnesia, soda, potassium, and God knows what else, and the Liver Pad has done what all combined fail-

ed—miserably failed—to do. Yours, S. C. CLOW, North Sewickly, Pa.

The company have sent to Cairo one of their most trusted medical experts, and have established his consultation parlors at the St. Charles until an office in a more central location can be fitted up. All consultations are free, and patients can be treated with safety and correctness by letter. Those who are not able or do not find it convenient to call at the hotel, will, on application, at their homes, receive consultation free of charge. Address, Holman Pad Co., St. Charles hotel, Cairo, Ill. Sec price list in another column of this paper

LETTIE COLEMAN'S LAUNDRY.

Mrs. Lettie Coleman, who has her laundry on Fourth street, between Washington and Commercial avenues, takes this method of informing her old friends and patrons that she is at their serasked when Congress re-assembles so as to has reduced prices to suit the times.
